

FDNY 2017 Dispatched Calls

This map shows New York City Fire Department (FDNY) dispatches in 2017. Data was taken from NYC Open Data. A grid was created over the 5 boroughs of New York City, the grid is filled based on number of calls in that square. The FDNY is the largest fire department in the United States[4] and responded to over 580,000[1] calls in 2017. Thousands of firefighters located at 218 firehouses[2] across the city ensure these calls do not go un-answered.
